BUMED Reserve Affairs (M10)

Strength through Integration

Underway……Shift Colors

Our Mission

As the Reserve Component advocate of the U. S. Navy Medical Department, we:

- Promote, manage and lead the integration of the Medical Reserve to support the mission of Navy Medicine.

Our Vision:

Total Force Integration - One Navy Medicine

Our Guiding Principles:

We believe:

- in fostering professional, cooperative relationships.
- in honest, open and effective communication in an atmosphere of trust.
- in effective and efficient stewardship of resources.
- The Navy core values are the bedrock for our value system.

Underway……Shift Colors

Global Perspective

- Naval Medicine has a key supporting role within our National Military Strategy:
  - To protect the United States
  - Prevent conflict & surprise attack
  - Prevail against adversaries who threaten our homeland, deployed forces, allies & friends

New Culture Perspective That Governs USNR's Role

- In the words of the CNO [Chief of Naval Operations Admiral Vern Clark]
- "It's not the Naval Reserve, it's the Navy. The Naval Reserve is the reserve component or the reserve element of our Navy"

VADM John G. Cotton

Chief of Navy Reserve

Commander, Naval Reserve

Underway……Shift Colors

Shaping the Navy's Reserve *Objective…Operational Support*

Manpower
Current Readiness
Future Readiness
Quality of Service
Alignment

Predictability
Periodicity
Pay/Benefits

CNO's 5 Goals

CNR's 4 Challenges

Reservist's 3 Priorities

SECNAV's 2 Expectations

One Vision

Communication
Culture
Continuing Education
Commitment

Effective
Efficient

Support to the Fleet…*Ready and Fully Integrated*

A Refocused Force

Support to the Fleet…Ready and Fully Integrated

The Naval Reserve's mission has changed…

Old **Units**

Mobilized to the Navy during
of war or national emergency

New **Tailored Capabilities**

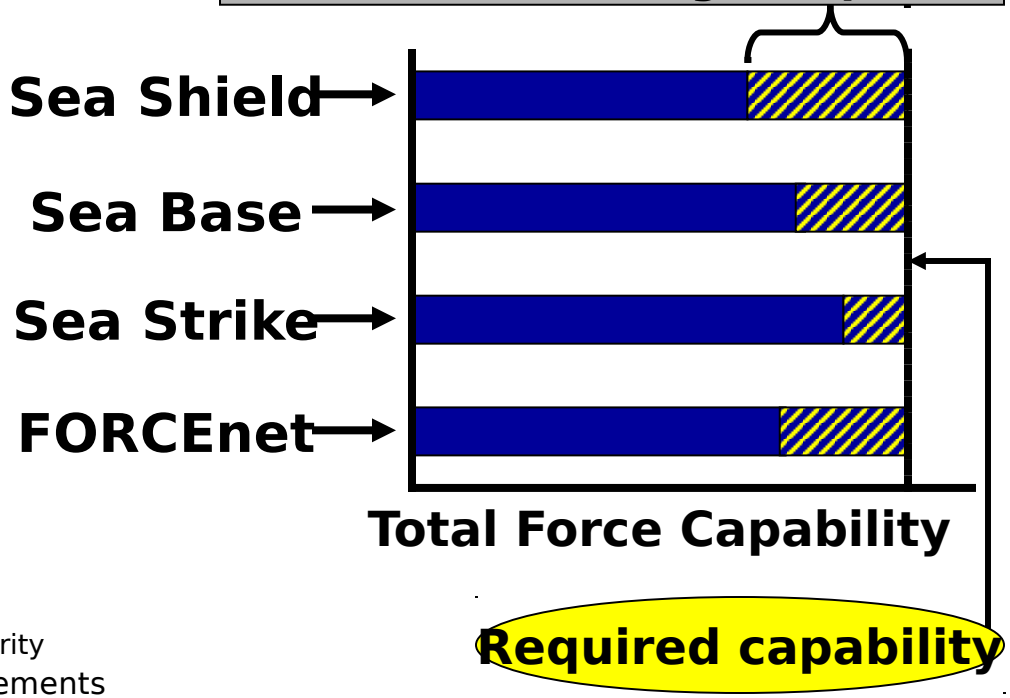
- **Rotational** ***Periodic Predictable***
- **Surge**

…the Navy and its Reserve *share the same mission*

The Navy's Reserve

Contributing to Warfighting Wholeness

The right mix and number of reservists…with the right capabilitie



Shaping the Navy's Reserve…

To provide responsive operational support

- Flexible capability…rapidly available
- Warfighting wholeness and Homeland Security

Driven by defense strategy and *Fleet* requirements

Underway……Shift Colors

ONE NAVY
ACTIVE AND RESERVE

Can you pick out the reservist in this picture?

VADM Donald C. Arthur

Surgeon General of the Navy

Chief, Bureau of Medicine and Surgery

Underway……Shift Colors

Navy Medicine's Priorities

1. **READINESS - Aligned and Agile**
   - Daily operational excellence
   - Responsiveness and agility
   - Homeland security
   - Relevant research and medical intelligence
2. **Quality, Economical Health Services**
   - Focused on health preservation
3. **Shaping Tomorrow's Force**
   - Recruit, train, and retain the best
4. **One Navy Medicine:**
   Active, Reserve, Civilian
5. **Joint delivery of DoD Health Services**

New Concept - *AT Dreamsheet*

- Accomplishes (3) Key Objectives:

- Approved active duty requirements are listed (if not listed ….not identified – what is the requirement?)

- SELRES “at large” can see all the requirements (jobs)

- Removes a “technical burden” from OIC’s – places responsibility on the individual SELRES to look
  - **<u>Leadership must direct and match …that’s you!</u>**

The Role of the USNR in CONUS and OCONUS Evolutions

What's Happening

- Navy Medicine has a key role supporting medical request for forces (RFF) within the CENTCOM AOR:

- Joint Staff assigned Navy as the sourcing agent to support Army medical requirements

- Creation of the Expeditionary Medical Facility (EMF) to (suite) requirements

Who will support?

There are two basic ways:

Active Component (AC) – on station now- Naval Hospital Portsmouth is force supplier

(EMF Portsmouth)

Responsible Code: BUMED Current Ops M3F3

Reserve (RC) – In route relief – EMF Dallas

Responsible Code: BUMED Reserve Operations M10

Successful Exercise Support
What We Do -OCONUS & CONUS-

FY 05 Tentatively Planned Exercises

Underway……Shift Colors

RFF Is Requirements Focused

Falls under the Category of the Four Challenges : Commitment:

"Naval Requirements – we must accomplish the mission"

Force use is driven by the requirement process

(Both OCONUS & CONUS Requirements!)

In Review
Things that are Important

What gets measured gets done…
Reserve Force meeting requirements?

Our Resource Allocation has improved

- *Out of 6,000 Requirements - 55 –60 % matched during FY04*

Allocation process can be made more efficient (How?…We need good AC requirements and timely Reserve matching – NROWS orders)

Take Away

OCONUS or CONUS: The Navy Medical Reserve Force has the authority (CNRFC-BUMED - MOU) and the technology (MEDRUPMIS) to enable proper resource allocation of the Navy's most important asset – people!

Be trained - Be ready. Your country and the Navy needs you!

Emerging Educational Opportunities

Nonresident HM "A" School Course

- Goal is to send 300 Reservists from our medical commands through the course in FY 05
- Service member's commitment includes 100 hours of web based learning before attending the two week resident phase (AT) at the Naval Hospital Corps School

HM/DT to BSN

- Enrollees drill at hospital or school to earn drill credits

Enlisted HM A and C School Opportunities

- Surgical Tech, Lab Tech, X-ray Tech, Pharmacy Tech, 8404 & others.

Medical In-Training (MIT)

- Drill at hospital or school earns drill credit
- Open to all residents where vacancies exist as approved by CNRF N1 and Corps Chiefs
- Mentored via the Professional School Liaison Officers (PSLO)
- Members MAY be mobilized while in training, but can apply for deferment
- **Open for MSN: OR, CC, CRNA & Med/Surg**
- **Open for Board selected HM for BSN**

Priority Medical Specialty (PMS)

- Eligibility based on medical specialties critical to the Naval Reserve
- Participants are fully trained and mobilizable
- Drill at NRA or MTF twice annually for PRT and admin requirements
- Additional drills per member discretion
- Pay earned for drills completed only

Priority Medical Specialty

- Mentored via the Professional School Liaison Program (PSLO)
- Fitness Reports from CO, NR NH HQ
- Career Neutral Program
- AT Waiver option

HM/DT to RN Drill Option

GOALS:

Grant HM/DT pursuing a BSN degree drill credit for Nursing studies

Develop a drill option/recruiting tool to help shape the Nurse Corps into a more junior grade force

HM/DT to BSN: Drill Option

- Board selection process- twice annually
- Open to any drilling HM or DT with 16 years or less in service
- Nursing studies earns drill pay/credit
- Must drill twice annually for PRT/admin
- Drill option available for max. of 3 years
- Nurse Corps Commission expected
- POC: HMCS Heltzel 202.762.3419

Underway……Shift Colors !

BSN Drill Option Details

Eligibility:

Open for all active drilling HM's and DT's

Must be able to complete 20 yrs. Military service by age 60

Must be enrolled in accredited BSN; 6 credits/semester

3 yrs. Maximum enrollment to degree

BSN Drill Option Details

Unit C.O. Responsibilities:

If not enrolled for any semester, member must drill with unit

Sign member's NAVRES 1570/16 (Individual Monthly Drill Performance) form and submit to NRA RESPAY

*Inspection item for paperwork and program compliance

BSN Drill Option Details

After passing a state board of nursing licensure exam, member may apply for commission

There will be no additional reserve obligation if member is not selected for Nurse Corps commission

NAVY MEDICINE
